*"The times and places of the Park"*  
During the week we will discover  
the places of the Parco Nord Milano:  
we will explore the biodiversity of  
the woods, ponds and canals, until  
we know the communities that have  
been created around it.  
We will support those who build,  
care and live the Park every day: the  
employees and associations of the  
territory.

The activities are aimed at boys and  
girls from 6 years to 11.
